BATTLAX

TECHNOLOGY

MS•BELT

MSB construction means that a continuous single strand is wrapped around the circumference of the tire. This one-piece construction eliminates overlapping of belts, seams, and joints. A MSB tire is lighter than conventional multi-cross belt construction, it has more stability since it minimizes heat generation inside the tire and gives high shock absorption.

V-MS•BELT

Optimization of the spacing of the MS•BELT cords coiled around the tire's circumference contributes to ideal tire contact properties, as well as enhanced grip and performance.

ULTIMAT EYE

Visualization of the tire contact patch behavior with measurement and simulation technology. Supplies less slip area for good traction while riding and improves wear life.

CAP&BASE

The underlying layer controls tread stiffness, reinforcement and assists with bump absorption.

3D CTDM

3D CTDM is Bridgestone's newest automated tire design technology. This leading edge 3D CTDM program enables Bridgestone to conduct dynamic, three-dimensional simulations and analysis of tire performance, in addition to finding optimum solutions at all lean angles.

HTSPC

Bridgestone was the very first motorcycle tire manufacturer to utilize 1X5 filament rubber insulated steel (MSB) in the manufacture of its motorcycle radial tires. This technology offers many advantages over steel that is used by the competition. This makes the tire more flexible, provides more stability without a reduction in shock absorption, and minimizes the generation of heat throughout the tire.

RC POLYMER

RC Polymer technology optimizes the distribution of silica within the rubber compound and improves tread flexibility allowing greater contact with the road surface in both hot and cold conditions. The reduction in molecular friction also improves rolling resistance, therefore increasing fuel economy.

OUTSIDE BEAD FILLER

The latest generation outside bead filler realizes the ideal sidewall profile analyzed by a finite element method by giving optimum force distribution and rigidity balance.

NANOPRO-TECH

NanoPro-Tech is the name of a technology that facilitates the realization of the required features in a tire by controlling the material microstructure through structural design at the molecular level. It is one of Bridgestone's fundamental technologies.

SILICA RICH

Silica Rich Compound provides enhanced gripping capability in wet conditions and low temperatures; ensuring superb handling at the beginning of every ride. It also provides a more consistent and longer lasting grip.

SILICA RICH EX

Performance in wet conditions is improved by increasing the amount of silica compared to conventional SILICA RICH.

3LC (DUAL COMPOUND)

Provides grip performance demanded in all riding modes. The center compound offers linear handling. The shoulder compound secures high grip and solid contact feel.

Dual Compound

3LC+CAP&BASE

The CAP&BASE construction divides the shoulder of the compound of the tire into upper and lower sections. By using a high grip compound for the upper section of the shoulder, and a high stability abrasion resistant compound for the lower and central sections, provides the desired combination of both performance and mileage.

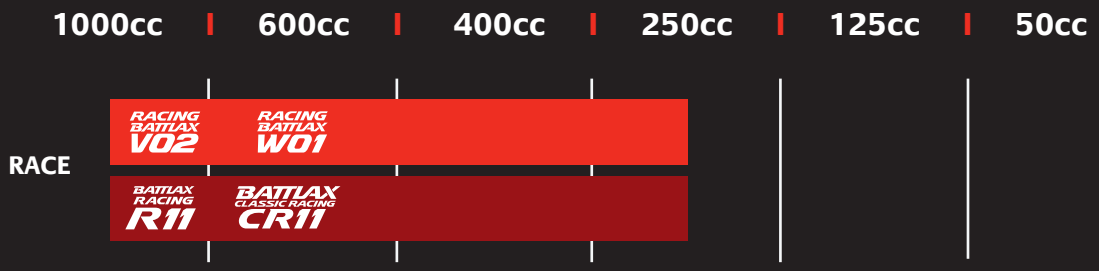

5LC (TRIPLE COMPOUND)

Offers ideal grip performance demanded in all riding modes. The center compound provides good stability. The shoulder compound transfers engine power to the road with strong traction. The edge compound offers strong side grip and solid contact feel at deep lean angles.

Triple Compound

POSITIONING

FOR TRACK USE ONLY*

*For more information, please contact your local race tire distributor or call 1-800-828-9143 to locate the race-specific dealer near you.

RACE

RACING BATTLAX V02 TRACK USE ONLY

Bridgestone's flagship non-DOT race tire, available in both soft and medium compounds. Whether you are just starting out, or competing for a podium finish, the RACING BATTLAX V02 has your back.

V02 FRONT V02 REAR

Key Benefits:

- Improved stability and grip while cornering*
- Longer life, and improved lap times*
- GP-Belt™ rear increases contact patch, and improves overall grip and tire wear*
- Tire warmers recommended

*Rear Tire Only

*Compared to the RACING BATTLAX V01

**Racing rear tires only

RACING BATTLAX W01 TRACK USE ONLY

With performance derived straight from the upper echelons of racing, the RACING BATTLAX W01 gives you the confidence you need in wet racing conditions to still push yourself and your motorcycle to victory.

W01 FRONT W01 REAR

Key Benefits:

- Pattern designed directly from MotoGP wet tires
- Optimized pattern rigidity both front and rear gives excellent wet handling characteristics
- Grooves placed in same direction as water flow to provide efficient water drainage
- Larger contact patch provides higher grip in wet conditions*
- Average of 2 seconds faster per lap*
- Tire warmers recommended
- Non-DOT

RACING

BATTLAX RACING R11 TRACK USE ONLY

Bridgestone's premier grooved racing tire, designed from the ground up to provide the confidence you need to chase the ultimate lap time. With a mix of technologies cultivated from the highest levels of racing, and Bridgestone's newest advancements in construction and compounding, the BATTLAX Racing R11 delivers world class performance for the grooved racing tire segment.

R11 FRONT R11 REAR

RACE

BATTLAX CLASSIC RACING CR11

TRACK USE ONLY

Born from the DNA of the R11, the Battlax Classic Racing CR11 was developed for the classic racer looking for high grip in the wet and dry, quick warm up times, and consistent performance over the life of the tire.

Key Benefits:

- Excellent grip on wet and dry
- Optimized groove angle and alignment
- Rear tire features 3LC Technology
- Enhanced cornering grip, and high braking stability
- Quick warm up time, critically important for races that don't allow tire warmers

POSITIONING

HIGH PERFORMANCE SPORT RADIALS

BATTLAX RACING STREET RS11

Enhance the ride of your liter bike with Bridgestone's flagship sport tire. The Battlax Racing Street RS11 is built with technology derived from the highest levels of racing. Whether you are chasing lap times, or riding your favorite winding road, enjoy Bridgestone's most aggressive street sport tire.

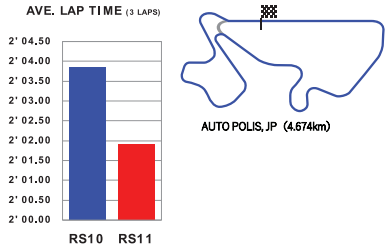

- Increased cornering grip and stability, with improved rider feedback:
  - The RS11 is the first road-oriented tire that has adopted the new V-MS-Belt construction in the rear which is currently used in Bridgestone's highest performing race tires. This significantly improves the contact area with the road surface, enhancing cornering grip.*
  - A new molecular approach of fine carbon particles in terms of compounding has improved the bite to the road surface and enhanced the grip characteristics of the compound itself.*
  - New 3LC compounds on the front and rear create greater grip, increased cornering stability, and improved rider feedback. No sacrifice to straight line stability.*
- Groove pattern inspired by the BATTLAX Racing R11: Design adaptations make it an incredibly capable track tire, while still maintaining street tire performance.
- Increased wet performance: Enhanced water dispersion due to new groove design *
- 1.9 seconds faster per 2 minute lap*
- Sizing for modern liter bikes
- DOT Approved (No warmers needed

*Disclaimer: Comparison based on Battlax Racing Street RS11 tire versus Battlax Racing Street RS10 tire from internal testing. Results may vary.

HIGH PERFORMANCE SPORT RADIALS

BATTLAX RACING STREET RS10

- High-performance sport radials optimized for high-grip and handling performance on dry surfaces.
- Bridgestone's MotoGP development analysis was used to determine the placement of new 3-D tread grooves to improve stability, grip and handling by optimizing block stiffness.
- Specially formulated rubber compounds front and rear offer sure grip as well as increased durability.
- RS10 (front) uses a Mono-Spiral Belt constructed with stiffer steel to enhance rigidity of the tread area for upgraded response and stability.
- Cap and Base (rear) adds tread stiffness for stability when braking and accelerating.
- Softer sidewall construction (rear) incorporated for better damping to improve handling.
- **Compares to:** Michelin Power Supersport, Pirelli Rosso Corsa, Metzeler Racetec K3.

HIGH PERFORMANCE SPORT RADIALS

BATTLAX HYPERSPORT S22

The BATTLAX HYPERSPORT S22 is Bridgestone's premier tire for the modern street sport bike. Starting where the S21 left off, the S22 has improved both the compounds and pattern design, to promote better handling in all conditions, without compromising wear.

- New front and rear compound improves the S22's dry grip*
- New front and rear pattern design, and a new rear compound improves the overall wet grip*
- Improved handling response due to increased pattern rigidity*

FRONT AND REAR

New Pattern Design

- Enhanced groove design with optimized rigidity*
- Improved wet performance*
- Improved handling response*

New Compound Front CL & Rear TR

- Improved dry grip*

New Compound Rear Center

- Improved wet performance by utilizing fine grain Silica*

MS•BELT Front & Rear

- Promotes handling and stability

HIGH PERFORMANCE SPORT RADIALS

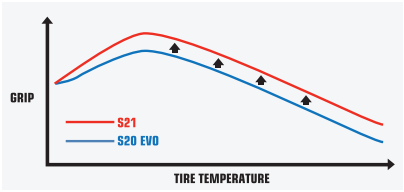

BATTLAX HYPERSPORT S21

- Dry grip and wear life significantly improved without sacrificing wet performance.
- 3D cross grooves designed to optimize rigidity and improve contact with the road.
- Dual compound front tire (3LC) with revised profile generates higher grip at lower lean angles.
- Triple compound rear tire (5LC) with revised profile provides improved stability and durability.
- Enhanced Micro-contact-patch Compound (EMC) technology used for both front and rear shoulder compounds. EMC increases grip potential and improves thermal stability to make sure the tire performance remains consistent as temps go up.
- **Compares to:** Dunlop Q3+, Michelin Pilot Power 3, Pirelli Diablo Rosso II, Metzeler Sportec M7 RR.

POSITIONING

SPORT TOURING

BATTLAX SPORT TOURING T31

- The T31 replaces the very successful T30 EVO as the next evolution in Bridgestone's long line of sport-touring tires.
- T31 delivers our best ever wet weather performance without sacrificing the dry handling and wear life that the T30 EVO has become known for.
- Tread pattern with deco groove is optimized to ensure confidence-inspiring wet weather performance with a bold look.
- Optimized Mono-Spiral Belt construction (MSB) provides dynamic handling response with a light, linear feel and superb line holding ability.

T31 FRONT

T31 REAR

- Front compound and revised 3LC rear construction enhance stability and all weather grip to shorten wet braking distance and improve traction while offering long tread life.
- "GT" Spec is available in 5 sizes to suit heavy-weight sport-touring machines.
- **Compares to:** Dunlop Roadsmart III, Michelin Pilot Road 4, Pirelli Angel GT, Metzeler Roadtec 01.

SPORT TOURING

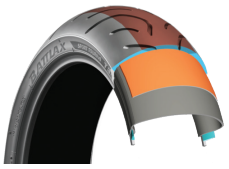

BATTLAX SPORT TOURING T30EVO

- The T30 EVO is an updated version of the T30 sport touring radial.
- Building on the response and stability of the T30, the EVO delivers more traction and control, especially on wet surfaces, by using new rubber compounds and re-engineered designs.
- Tread grooves (rear) are modified to increase water channeling and to provide greater tread stiffness.
- Contact area (rear) increases with lean angle, for increased grip when cornering.
- Front and rear rubber compounds improve wet grip in a wider temperature operating range.
- T30 EVO also provides shorter wet braking distances.
- **Compares to:** Dunlop Roadsmart II, Michelin Pilot Road 4, Pirelli Angel GT, Metzeler Roadtec 01.

*All comparisons made to Bridgestone T30 Sport Touring Tire

T30EVO FRONT

T30EVO REAR

TECHNICAL FEATURES — Front — Rear

T-Cross shaped Groove:
Straight center groove provides better contact due to reduced tread stiffness. Slanted groove towards the shoulder provides higher block stiffness due to consistent input force when cornering.

Semi-Slick pattern shoulder:
Fewer grooves provide a larger contact patch in the corners.
Fewer grooves provide higher block stiffness in the corners.
Features that inspire confidence to the rider when cornering.

Swirled shape groove:
Groove offers a combination of round and straight elements.
Combination improves contact without losing block stiffness.

POSITIONING

AMERICAN V-TWIN TIRES

- High performance tires designed specifically with the American V-Twin rider in mind.
- Compounds and profiles designed to offer the optimal balance of handling, mileage and rider comfort.
- Optimum tread pattern for high powered American V-Twins with attractive diamond cross deco-groove.
- Get 50% better rear tire wear than Dunlop D401.*
- Carcass designed for easier steering and improved ride quality for long distance riding.
- Compares to: Dunlop American Elite, Michelin Commander II, Pirelli Night Dragon, Metzeler ME880/888.
- Supplemental road hazard limited warranty included. See website for warranty details.

BATTLECRUISE H50

FRONT

Front Tire Construction

In addition to the Battlecruise H50 tire's handling performance, Bridgestone focused on the vertical stiffness of the tire to ensure ride comfort on long trips.

Outcome

- Strategic reinforcement on the carcass and envelope
- The right balance between rigidity and shock absorption

Benefits

- Improved vibration damping
- Higher shock absorption

REAR

Rear Tire Profile

- Larger crown profile (CR)
- Designed to optimize the slip and adhesion portion of rubber on road surfaces

Benefits

- Optimized profile with a newly developed compound delivers the satisfaction of extended mileage.

*Comparison of Bridgestone Battlecruise H50 vs. Dunlop D402F/D401. Results may vary depending on proper tire and vehicle maintenance, road conditions, and driving habits.

BATTLAX BT46

Upgrading an icon is never easy. The BT46 replaces the BT45 as Bridgestone's premier Bias-Ply vintage sport and touring tire. The BT46 improves wet grip without sacrificing wear life or handling characteristics*.

Key Benefits:

- Bias-Ply Tire designed for vintage sport and touring motorcycles
- New Silica single compound in the rear to maximize performance, grip, and wear
- Increased wet performance*
- No sacrifice in wear life*

*Compared to the Bridgesonte BATTLAX BT45

BATTLAX BT-45

BT-45 FRONT BT-45 REAR

Battlax BT-45 Sport Touring Replacements

- Sport Touring Bias-Ply tires for mid-sized sport-touring bikes and older sport bikes.
- Features Silica enriched compound for wet and dry grip.
- Dual Compound in the rear allows for longer mileage than single compound and better stability from center, while edges offer grip and performance while cornering.
- Larger crown radius contributes to stability for high speed touring.
- Available in H and V-rated sizes.
- **Compares to:** Dunlop GT501, Pirelli Sport Demon, Metzeler Lasertec, Michelin Pilot Activ, and Macadam.

SCOOTER

BATTLAX SC

Sport-inspired design for the urban rider and commuter with small to medium displacement (<=400cc) scooters. Zip around your city with confidence in both wet and dry conditions.

Key Benefits:

- Sporty handling and stability from V-shape tread pattern
- Designed to reduce noise from optimized main tread groove angle
- Wet weather grip from wider grooves
- Reduces irregular wear and shimmy via optimized tread rigidity

SCOOTER

BATTLAX SCOOTER SC2

Experience the full potential of your maxi-scooter with the hypersport-inspired Battlax SC2. Whether blasting through the morning commute or discovering your new favorite backroad, the SC2 has you covered.

FRONT REAR

*1 *2 *2 *3

Key Benefits:

- Enhanced precision feeling and handling because of MSB construction*
- Confidence inspiring grip because of 3LC rear construction
- Enhanced dry cornering grip due to increased block rigidity and featuring same tread pattern as BATTLAX Hypersport S21*
- Optimized groove angle designed to improve deformation and roll characteristics*

*Comparison based on BATTLAX Scooter SC2 vs. BATTLAX SC from internal testing. Results may vary depending on proper tire and vehicle maintenance, road conditions, and driving habits.

*1: Rear (160/60R15 M/C)
*2: Rear tire only

ADVENTURE/DUAL SPORT

BATTLAX ADVENTURECROSS AX41

FRONT REAR

40% On-Road / 60% Off-Road

Designed specifically with the Adventure enthusiast in mind. This 40% on-road / 60% off-road Adventure tire is the perfect compliment to your modern Adventure motorcycle, and provides enhanced performance both on and off-road.

- The BATTLAX ADVENTURECROSS AX41 offers improved off-road traction from a new pattern design, compound, and high cross sectional area*
- The new compound, pattern design, and block wall angle optimization have improved the durability of the AX41*
- The new blocks feature Even-Wear™ Design, and have improved the performance on road by reducing block deformation due to step wear.*

* Versus the Bridgestone A41, and the Bridgestone T301/T302

BATTLAX ADVENTURE A41

- Bridgestone's third generation Adventure Touring tire delivers confidence inspiring performance and excellent life for a wide variety of bikes.
- Both front and rear feature 3LC™ (Dual Compound) with new compounds to provide grip when it's needed without sacrificing mileage.
- 90% on-road/10% off-road tire that gives you confidence, which inspires touring performance even when the pavement ends.
- Best ever wet performance from our Adventure Touring tires.
- Tread patterns with deco groove enhances wet weather performance and offers improved agility and line-holding with an aggressive look.
- Both front and rear now use Mono-Spiral Belt construction to improve stability in all conditions.

MOTOCROSS TIRES (NON D.O.T.)

BATTLECROSS X20 *Soft/Intermediate Terrain*

- Available in most big bike sizes.
- Tread pattern and block design front and rear provides higher cornering grip and greater traction on soft terrain.
- Convex "Castle Block" rear offers enhanced traction on a wider range of terrain conditions.
- Improved grip in all conditions.
- **Compares to:** Dunlop MX3S, Michelin MS3 and S12, Pirelli Scorpion MX32.

BATTLECROSS X30 *Intermediate Terrain*

- Available in most big bike sizes.
- Front tire features Asymmetric Block Pattern which optimizes block placement to achieve stable grip under braking and cornering.
- Rear tire features Cooling Fins for better heat dispersion which offer more consistent performance.
- Convex "Castle Block" (rear) offers enhanced traction under acceleration and braking.
- Improved grip in all conditions. Crosses well between soft, intermediate and hard terrain.
- **Compares to:** Dunlop MX3S, Michelin StarCross 5 Medium, Pirelli Scorpion MX32/MX554.

OFF-ROAD/ENDURO

BATTLECROSS E50

The BATTLECROSS E50 is the most versatile off-road tire in the BATTLECROSS line-up. The E50 is built specifically with the hardcore Enduro rider in mind, where the rider must traverse multiple surfaces in one ride.

- Specifically designed for the hard core Enduro rider.
- The E50 tire is optimized for a broad spectrum of off-road riding.
- Improved off-road traction due to a new front and rear tread pattern, Castle Block™ Technology, increased block rigidity, and the additional biting edges of our bunker technology*.
- Improved cornering grip from the newly designed front and rear tread pattern, Castle Block™ Technology, and increased block rigidity*.
- The E50 is easier to mount because we optimized the sidewall rigidity and the profile to improve rim fitting at the track or on the trail*.
- DOT approved.

Castle Block (Convexed Block)

Convex blocks that maximize the edge effect of the block in the center area in order to help ensure traction on not only the intermediate road terrain but also the hard terrain.

Bunker (Dent in Tread Part)

Even when the block part is buried in the road surface, it produces traction at the edge part of the bunker wall.

* Versus the Bridgestone ED663/ED668, and ED03/ED04

SIZE/AVAILABILITY CHART

* Versus the Bridgestone ED663/ED668, and ED03/ED04

BATTLECROSS E50 EXTREME

The E50 Extreme is built to compete in the most extreme enduro races. Challenge the toughest terrain with confidence due to a soft compound especially developed for superior grip.

Key Benefits:

- Extra soft compound provides increased grip
- Advanced block positioning and castle block technology to maximize traction
- Grip improvements on all Extreme Enduro terrain*
- 1 size, 140/80-18 rear
- Non-DOT

*Compared to E50

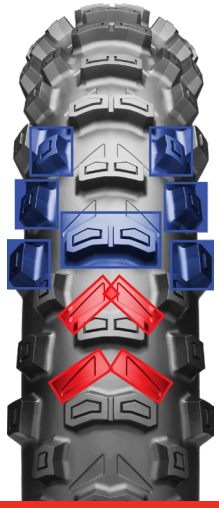

FRONT

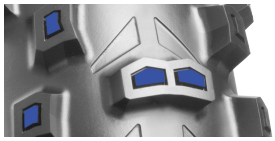

REAR

TECHNICAL FEATURES

REAR

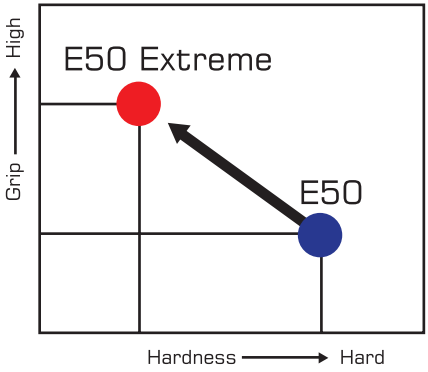

Castle Block (Convexed Block)

Adopt convex blocks that maximize the edge effect of the block in the center area in order to ensure a strong traction

Bunker (Dent in Tread Part)

Even when the block part is buried in the road surface, it produces traction at the edge part of the bunker wall.

Compound for E50 Extreme

A softer compound demonstrates excellent grip and powerful traction

MOTOCROSS TIRES (NON D.O.T.) *SMALL/MINI SIZES*

M203/M204: Soft/Intermediate Terrain

- M203 (front) has tire design technology working in a broad range of soft & intermediate terrain applications.
- M203 (front) provides strong grip with directional pattern rotation to enhance stability and increase braking power.
- M204 (rear) offers a race proven tread pattern designed with extra wide block spacing for great drive performance and slide control on firm base soil.
- M204 (rear) has tall tread blocks with shoulder steps and increased base angle radius for reliable stability and durability in a broad range of abusive soil conditions.

M403/M404: Intermediate Terrain

- Bridgestone's broadest range motocross & off-road tires.
- Race-proven Tread Design Patterns & Rubber Compounds.
- Fine-Tuned Casing Constructions.
- Derived from top Factory SX/MX and Off-Road Racing Technologies.
- Good durability & covers a wide range of soils.
- M403 (front) provides Cornering Control & Feedback even at full lean angles.
- M404 (rear) offers Traction & Slide Control for strong acceleration out of corners.
- **Compares to:** Dunlop MX3S, Michelin MS3/MH3, Pirelli Scorpion MX32/MX554.

Safety Warning

Run-In

Use care when riding on new tires. We recommend that you ride slowly and carefully for the first 60 miles (~100 km) until you become accustomed to the performance of your new tires in conjunction with your motorcycle. We recommend avoiding extreme maneuvers, including sudden acceleration, maximum braking and hard cornering, until you have become accustomed to the performance of you tires in conjunction with your motorcycle.
