

BATTLAX **RACING STREET** **RS11**

The Battlax Racing Street RS11 is Bridgestone's latest sport tire, designed for track day performance and street rideability. An evolution of the RS10, the RS11 utilizes technology derived from the highest levels of racing to ensure optimal performance.

BATTLAX RACING STREET RS11

BRIDGESTONE'S RACING/STREET TIRE WITH IMPROVED RIDER FEEDBACK FOR INCREASED CORNERING GRIP AND STABILITY.

- The RS11 is the first road-oriented tire to adopt the new V-MS-Belt construction in the rear, which is currently used in Bridgestone's highest performing race tires. This significantly improves the contact area with the road surface, enhancing cornering grip*
- A new molecular approach of fine carbon particles in terms of compounding has improved the bite to the road surface and enhanced the grip characteristics of the compound itself*
- New 3LC compounds on the front and rear create greater grip, increased cornering stability, and improved rider feedback. No sacrifice to straight line stability*
- Groove pattern inspired by the BATTLAX Racing R11: Design adaptations make it an incredibly capable track tire, while still maintaining street tire performance.
- Increased wet performance: Enhanced water dispersion due to new groove design*
- 1.9 seconds faster per lap**
- Current availability for modern liter bike sizes
- DOT-Approved

*Comparisons based on Battlax Racing Street RS11 tire versus Battlax Racing Street RS10 tire from internal testing. Results may vary.
**Tested on a 2-min lap.
